

**69 information products** published across **21 different research cycles (RCs)**

Approximately **8,400 downloads** of information products from digital platforms online

REACH **cited over 145 times** in strategic documents including: Humanitarian Needs Overview, OCHA's COVID-19 Situation Report & MMC's Impact of COVID-19 on migrants and refugees in Libya (see [here](#))

**20+ organisations** engaged in different capacities

## Shaping operational planning on the ground

Area-based assessments provided detailed information on access to services in Sebha specifically for usage by actors working on humanitarian/ nexus linkages.

Joint market monitoring initiative (JMMI) data informed partners in the Cash Working Group on the cash transfer value (CTV), **ensuring that the transfer value is in-line with the cost of living in Libya.**

## Bringing about system-wide change

Through the establishment of the Assessment Working Group (AWG) and by pushing for an active AWG, REACH has been **promoting the use of this platform for joint analysis exercises**, as well as to **spearhead a system for joint rapid assessments** (with triggers to lead rapid assessment efforts under the AWG).

## Informing strategic planning and decision-making

Findings from the multisectoral needs assessment (MSNA) reportedly **highlighted funding priorities** both in terms of sectors of intervention (health and protection) as well as geographical areas and population groups of interest (south Libya and vulnerable groups living in big cities).

“ Although not a signatory to the Grand Bargain, REACH has been actively engaged in the work stream at headquarters and led multi-sectoral needs assessments at country level in support of HCT processes. ”

- HPG Commissioned Report, Grand Bargain Annual Independent Report 2020 (see [here](#))

## OUR IMPACT

### Adapting to COVID-19:

- At least 5 RCs with a key focus on COVID-19, primarily on Impact of COVID, Accountability to Affected Populations (AAP)/ Communication with Communities (CwC), Cash & Markets, Healthcare and Knowledge, Attitudes, and Practices (KAP)/ Vulnerabilities.
- Worked with a start-up company to design a digital platform to conduct online focus group discussions aimed at understanding use of coping strategies among the crisis-affected population in Libya.
